A Message from the CEO

As SOPBS CEO, I have the pleasure and honor of seeing years of hard work come to fruition, so that we can share a lot of exciting things with you.

Our cover story is ENERGY HORIZONS, a new 6-part local production from Keegan Van Hook and Tripp White, the team that produces US AS WE ARE. Over a year in production, Keegan and Tripp traversed the state to examine why energy is so vital to us and how Oregonians are building our future.

The fourth season of ALL ACROSS OREGON finds Vinny showcasing more of Oregon's unique culture, fantastic food, and authentic people.

For this year's elections, we are offering a broad slate of in-depth coverage, from FRONTLINE: The Choice (9/24), to THE AMERICAN VICE PRESIDENT (10/1), to CITIZEN NATION (10/8), to continuing PBS NEWS HOUR coverage. In the darkness of disinformation, we shine the liberating light of truth.

MYSTERY! Lovers will find new seasons of RIDLEY, MOONFLOWER MURDERS, VAN der VALK (all premiering 9/15) and a personal favorite, MARLOW MURDER CLUB (10/27).

A new series — BIG CATS 24/7 (beginning 9/18) — will take viewers to Botswana, where you will follow lions, leopards and cheetahs and experience stunning insights into that world.

In a coarsening society, we offer culture. From AMERICAN MASTERS profiles of Rita Moreno (9/13), José Clemente Orozco (9/16), Julia Alvarez (9/17) to performances of Gregorian Chant, R&B, Soul, and Rock & Roll. We'll also visit old friends from ALL CREATURES GREAT & SMALL (9/8), DOC MARTIN (9/7), SHERLOCK (9/8) and BOB ROSS (10/29 — See Page 20).

None of this would have been possible without the support and involvement of Viewers Like You.

Thank You.

Phil Meyer

**In six parts
Premieres Wed, Sept 18 at 8pm**

Viewers will be transported to Botswana's wild Okavango Delta, where a team of local and international filmmakers use the latest filming technology to follow lions, leopards and cheetahs day and night, revealing the lives of big cats like never before. Filmed in one of the most dynamic locations on the African continent, the show captures the big cats' battle to survive through dramatic changes within their families and their home. An elite camera team documents the lives of individual lions, cheetahs and leopards for six months, over two extreme seasons.

Episode One (9/18-8pm): The team begins a six-month expedition following lions, leopards and cheetahs in the Okavango Delta, but a huge wildfire threatens both the resident big cats and the team.

Episode Two (9/18-9pm): The team continues following the Okavango Delta's big cats after the wildfire. The dominant male lions fight intruders, while leopards and cheetahs struggle to get a meal.

Episode Three (9/18-9pm): A fight with intruders leaves the lion pride males injured and the mothers with cubs vulnerable to attack. Xudum the female leopard takes risks to find a mate.

Episode Four (10/2-8pm): The Okavango Delta is transformed by the arrival of the flood, bringing new challenges for the big cats. The lion cubs experience water and the danger it brings for the first time.

Episode Five (10/9-8pm): The team witnesses a baby boom in the Delta. Lioness Matho must protect her cubs while the leopard Xudum reveals her newborns with danger looming nearby.

Episode Six (10/16-8pm): Lion numbers continue to grow, but there's not enough food to go around. A lioness risks her life to feed her five cubs and Xudum's newborn leopard cubs face a deadly threat.

The American Vice President

Premieres Tues, Oct 1 – 9pm

Despite the assassinations of four U.S. presidents (Lincoln, Garfield, McKinley, Kennedy), the in-office deaths of four (Harrison, Taylor, Harding, FDR), the wounding of two (T. Roosevelt, Reagan) and attempts on the lives of several others, before 1963, the unthinkable was unaddressed in the U.S. Constitution. For the first two hundred years of America's democracy, it was not a foregone conclusion that the vice president would step in to replace the president in times of crisis.

The office itself has been an afterthought, a punchline, and an Achilles heel for the president. But vice presidents of the United States have also acted as stabilizers, tiebreakers and architects of critical policy despite the office being described by one disgruntled V.P. as "not worth a bucket of warm spit." So what happens when the President of the United States can't fulfill their duties due to death, illness or incapacity?

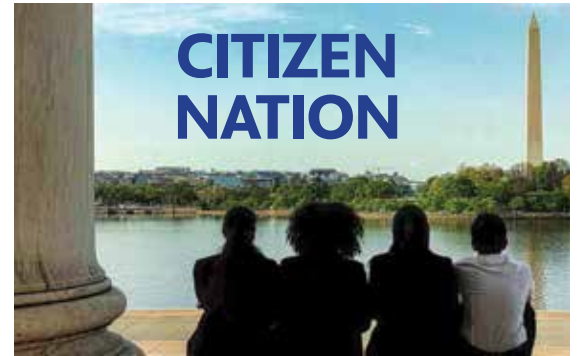

In this one-hour film, THE AMERICAN VICE PRESIDENT, we focus in on the fraught period between 1963 and 1976 when a grief-stricken, then scandal-stricken America was forced to confront the purpose of the vice president and the succession process through the evolution of the 25th amendment.

Tuesdays, Oct. 8 – 29 at 9pm

The four-part program is an inspiring coming-of-age story that follows teenagers from across the U.S. with diverse personal and political backgrounds as they come together to compete in the nation's premier civics competition, "We the People." The series shadows high school students over ten months across eight states as they grapple with critical questions about democracy.

Chasing Victory – Oct. 8

The episode introduces contestants as they begin the school year. Two teams from Wyoming embody the state's independent spirit. A Las Vegas team includes students whose families are recent immigrants from Nigeria, Thailand, and the Philippines. Maggie L. Walker Governor's School in Richmond, VA, is the defending national champion.

In the Fray – Oct. 15

The pressure heats up. One contestant from Virginia becomes eligible to vote in an election where his father, the coach of a rival team, is a candidate. Students on a West Virginia team confront fallout from poverty and opioid addiction in their community, yet remain steadfast in their hope of attending college. A Las Vegas team must overcome grief and persevere after a deadly shooting rampage at the University of Nevada in Las Vegas.

The Hustle – Oct. 22

Stakes are high as teams across the country prepare for their state competitions; only the winning teams will advance to Washington, D.C. Balancing deeply personal challenges, and tricky team dynamics, star students from Wyoming, Nevada, and Virginia push themselves to the limits. A strong new contender emerges from Wauwatosa, WI — if the team can survive a competition derailed by a blizzard.

Agree to Disagree – Oct. 29

The series wraps up at a thrilling championship showdown in the heart of Washington, D.C. Finalists are firing on all cylinders, giddy and nervous and dressed to the nines as they prepare to be challenged by contest judges. A winner is crowned.

in the Spotlight

Premieres Sun, Oct 27 at 9pm (4 episodes)

Episode 1: Retired archaeologist Judith Potts's peaceful evening in Marlow is shattered when she hears a gunshot coming from her neighbor's garden and believes that a brutal murder has taken place. With the local police — led by newly-promoted DS Tanika Malik — reluctant to believe her story, Judith starts her own investigation, enlisting the help of unfulfilled vicar's wife Becks Starling. Local dog-walker and empty nester Suzie Harris makes a terrible discovery that personally involves her in the investigation.

Episode 2: Judith, Becks and Suzie continue to follow a trail of clues left by the murder weapon. This leads them to an eccentric local weapons collector with an alarming secret. Judith spots a pattern in the evidence and the trio uncover new evidence that leads them to the chilling discovery that there is a serial killer on the loose!

Episode 3: With the team in a race against time to stop the killer, Tanika decides to bring Judith, Becks and Suzie into the police investigation as civilian advisors. Following another lead, the trio visit the office of a local lawyer, and suspect that he's hiding something. They plan a thrilling heist and retrieve vital, hidden evidence. The police make a forensic breakthrough on the crime scene evidence — have they caught their killer? The team rush to apprehend a suspect, only to realize that they were on the wrong track.

Episode 4: The women wonder if they've got what it takes to solve this case. Becks' family are worried for her safety, Suzie's daughter is about to return home, and Tanika is under pressure from her superiors. But Judith makes a breakthrough with the evidence from the lawyer's office. There's an important link between the murders, and the investigation is back on! Becks and Suzie convince Tanika that Judith is in danger, but is it too late to save their friend and stop the killer?

NATURE: DRACULA'S HIDDEN KINGDOM

Wed, Oct 30 at 8pm

Beyond the sinister mythology of Dracula's crumbling castles, there's something extraordinary about this corner of Romania. Shielded by the arc of the Carpathian Mountains, it is one of Europe's last true wildernesses. Forests unchanged since the Middle Ages are home to the world's biggest wolf packs, sanctuary to magnificent lynx and European brown bear. Abandoned medieval villages are resettled by elegant storks, the mythical childbringers of old, while families of mouse-eared bats struggle to raise their fragile young within the ruins of a 500-year-old church.

Southern Oregon PBS is excited to announce the premiere of our new documentary series, ENERGY HORIZONS. Directed by SOPBS's Keegan Van Hook (US AS WE ARE) and filmed by long-time collaborator Tripp White, this six-part series takes us on a journey to understand the importance of energy, climate change and resource depletion, along with potential solutions underway across Oregon. The show, hosted by Van Hook, takes us across the state, exploring current successes in renewable energy, frontier technologies in development and the challenges around energy storage and transmission.

October 17, 8pm (Repeats 10/19-7pm; 10/20-2am; 10/20-6pm)

We explore Oregon's energy landscape, environmental challenges and possible ways forward. Keegan and Tripp traverse the state of Oregon to examine why energy is so vital to us and how Oregonians are building our future.

Episode 2: Solar Revolution – Rooftops and Farm Fields

October 24, 8pm (Repeats on 10/26-7pm; 10/27-2am; 10/27-6pm)

We learn about solar energy and the explosion in rooftop solar adoption and options for non-homeowners across Oregon.

Episode 3: Offshore Wind – Potential and Controversy

October 31, 8pm (Repeats 11/2-7pm; 11/03-2am; 11/03-6pm)

Oregon has long maintained a robust wind energy sector. Now, with new interest in the powerful winds off Oregon's South Coast, potential is everywhere, but amid its promise, conflict and tensions are rising.

SEGREGATION SCHOLARSHIPS

Mon, Sept 16 – 12am

This documentary highlights the untold story of African Americans who traveled to the North in pursuit of advanced academic degrees when Southern graduate schools were white-only.

Instead of making the Great Migration a one-way trip, these academics — teachers, administrators, lawyers, doctors and other professionals — returned to the Jim Crow South, where they applied their knowledge towards strengthening southern Black communities and helped to end segregation in the United States. The story of these largely unsung trailblazers and civil rights foot soldiers illustrates the key role of education in transforming social conditions in the U.S., past and present.
