The Boys of '36: American Experience

Explore how nine working-class young men from the University of Washington took the rowing world and the nation by storm when they captured the gold medal at the 1936 Olympic Games in Berlin. These sons of loggers, shipyard workers, and farmers overcame tremendous hardships to beat not only the Ivy League teams of the East Coast but Adolf Hitler's elite German rowers. Their unexpected victory gave hope to a nation struggling to emerge from the Depression.

Independ. Lens: American Denial

In the wake of recent events that have sparked a national dialogue, explore the power of unconscious biases around race and class. Using Gunnar Myrdal's 1944 investigation of Jim Crow racism as a springboard, the film shows how unrecognized, unconscious attitudes continue to dominate racial dynamics in American life.

PROGRAM & FUNDING UPDATES

I hope you are enjoying your summer and have appreciated many of our recent new programs on SOPTV, including *Dancing on the Edge*, *The Tunnel*, *Shetland*, and the *Great British Baking Show, Season 3*. This month we are looking forward to the final season of *Inspector Lewis on Masterpiece*, *Oregon Lens*, and *Inside Poldark* — our first peek at the upcoming *Season 2* of the beloved series *Poldark on Masterpiece*, which is scheduled for late September.

It is mid-July at the time of this writing, and we are busy closing out Fiscal Year (FY) 2016 and preparing for a new fiscal year, during which we will recognize our 40th year serving southern Oregon!

Summer also marks the beginning of the 2017 appropriations proceedings on Capitol Hill. SOPTV and other public television and public radio stations are fortunate to enjoy federal support (roughly .012% of the federal budget). For stations, the appropriation is essentially a matching grant dependent on the support stations receive from their communities through membership, program underwriting, and grants.

Below is a brief summary of where we are in the federal budget process as we move into the fall.

The Senate. On Thursday, June 9, 2016, the full Senate Appropriations Committee considered and passed their version of the FY 2017 Labor, Health and Human Services, Education and Related Agencies (Labor-HHS-Education) Appropriations Bill, which included full funding for the Corporation for Public Broadcasting's (CPB) Ready To Learn and the second installment of the multi-year Interconnection infrastructure project (which is how programming is distributed to public television stations).

The House of Representatives. The House Labor, Health and Human Services, and Education Appropriations Subcommittee considered and approved its Fiscal Year (FY) 2017 bill on July 7. The following public media funding was included in the bill:

- \$445 million for FY 2019 for the Corporation for Public Broadcasting's (CPB) two-year advance
- \$10 million for public television's interconnection system for FY 2017

We are waiting to confirm that the bill also includes funding for Ready To Learn. Next, the full House Appropriations Committee will consider the Labor-HHS-Education Bill. For more information about Public Broadcasting's federal appropriation go to Protect My Public Media at: <http://protectmypublicmedia.org>

Research suggests that the connections in the brain follow different patterns — patterns that may explain male and female behavior. Are these patterns innate, or are they shaped by the world around us? Using a team of human lab rats and a troop of Barbary monkeys, Michael Mosley and Alice Roberts test the science and stereotypes.
