# ROGUE LIVES

with  
Jane Ballback

Jane Ballback, former producer of TEDxAshland, is branching off on her own to bring a new storytelling program to the region. In this venture, titled *Rogue Lives*, she has partnered with Southern Oregon PBS to have the live event filmed and edited into a series by the same name, set to air on Southern Oregon PBS this fall.

"Storytelling provides a tremendous empathy and an understanding of the other point of view. It develops the ability to take something very serious and engage you with it..." said Jane. "Even if you know how it is all going to turn out."

Bringing this show to a wider audience through the platform of SO PBS is the cherry on the cake to Jane.

"Working with PBS on this venture is a dream come true. From going from a spectator [of the channel] to being involved with a production is just so special to me at this phase of my life. It brings together so many interests, and talents and skills to one place."

## in the Spotlight

### Julia Child's Best Bites

**SAT, March 7 - 2:30pm; TUES, March 10 - 8pm**

She was quirky. Unpolished for television. Irresistibly whimsical — and wholeheartedly devoted to the art of French cuisine. Premiering in 1963, *The French Chef* taught a nation of Shake 'n Bakers who didn't know their Boeuf Bourguignon from their Bouillabaisse how to cook well, eat well, and drink well. Sometimes all at the same time. *Julia Child's Best Bites* features all-star commentary and unabashed appreciation of the first lady of cooking.

### Chuck Berry: Brown-Eyed Handsome Man

**SUN, March 1 - 6:30pm; SAT, March 7 - 10pm**

A collection of performances by the greatest rock icons in history performing favorite songs by their self-proclaimed hero Chuck Berry. For the first and possibly only time ever, we see full performances from the legends of rock and roll honoring the man they agree started it all. Superstars of rock The Beatles, The Rolling Stones, Bruce Springsteen, Tom Petty, Jimi Hendrix, Jeff Lynne and more were filmed at the heights of their own careers performing the work of Chuck Berry.

## Niall Ferguson's NETWORK

**TUES, March 17 - 8pm in 3 Parts**

In this groundbreaking new series hosted by Niall Ferguson, and based on his bestselling book *The Square and the Tower*, Ferguson visits network theorists, social scientists and data analysts to explore the history of social networks.

From the Reformation and 17th century witch-hunting, through the American Revolution and to the nightmare visions of Orwell's 1984, Ferguson explores the intersection of social media, technology and the spread of cultural movements.

Reviewing classic experiments and cutting-edge research, Ferguson demonstrates how human behavior, disruptive technology and profit can energize ideas and communication, ultimately changing the world.

### Pt. 1 Disruption - 8pm

Focusing on the great network revolution of our time and the Protestant Reformation, Niall Ferguson untangles important issues surrounding why social media networks polarize us, why some ideas go viral and why truth itself is at a disadvantage.

### Pt. 2 Winner Takes All - 9pm

Looking at lessons from the past, Niall Ferguson tells the story of how a decentralized worldwide web shifted to become a highly profitable network controlled by a tiny elite selling our attention for billions to the world's advertisers.

### Pt. 3 Network War - 10pm

Focusing on the geopolitics of our interconnected world, with lessons from terrorism and surveillance, Niall Ferguson shows how our democracies are under threat from forces that exploit and weaponize the social networks that we invented.

## CALL THE MIDWIFE Season 9

Premieres **SUN, March 29 - 8pm**

Season 9 takes our favorite nuns and midwives into the mid-1960s. Budgets are being cut, and hospitals reorganized. Terraced houses are being demolished, and traditional family structures torn apart. There are wrecking balls everywhere, and it's up to Sister Julianne, and the midwives and medics of Nonnatus House, to help find a way out of the rubble. When they themselves come under threat, their job becomes even harder.

As 1965 rolls by, we see the team dealing with cases involving cancer, diphtheria, dementia, fistula, and homelessness. They are faced with loneliness among the elderly, the traumas of an exhausted carer, and the defiant behavior of a young and vulnerable prostitute. They deliver more babies born out of wedlock, care for a couple whose beloved infant dies, and support a brave and beautiful new mother who is blind. Meanwhile the Turner's own family comes under threat, Lucille's romance does not run smooth, and Sister Julianne is driven to take an extraordinary step.

There is also a posse of visiting medical students, a fashion show in which Trixie wears the shortest miniskirt ever seen in Poplar, a Horticultural Extravaganza which tests Fred to the limit, and a firework display with a lot of toffee apples. Life, in some ways, has never been sweeter. But time and again, we see our beloved regulars patching over the gaps in the system with ingenuity, kindness and - that eternal, priceless, beautiful thing - their care.

## KEN BURNS PRESENTS THE GENE: AN INTIMATE HISTORY TUES, April 7 & 14 - 8pm

Pulitzer Prize-winning author Siddhartha Mukherjee, M.D., and acclaimed filmmaker Ken Burns collaborate on the new documentary inspired by Mukherjee's best-selling 2016 book, *The Gene: An Intimate History*.

"Science for me, like history, is the exploration of what has come before and the promise of the future," said Ken Burns. "THE GENE will allow us to untangle what is in some ways a more complicated story, the code of life itself, and see how that understanding is being applied to science and medicine today."

"Genes influence our forms and our fates, our behaviors and choices, and the forms, fates, behaviors and choices of every living being," said Mukherjee, assistant professor of medicine at the Department of Medicine (Oncology), Columbia University and staff cancer physician at Columbia University Medical Center.

"We are living in an era when humans are beginning to read and write this 'code of codes' — our own code — with astonishing and unprecedented facility. Drawing elements from history, science, anthropology, ethics and medicine, this Ken Burns production demonstrates how our understanding of genetics has evolved over the decades, and how deeply our future will be impacted by it. From the birth of genetics in the pea-garden of a modest monastery in Central Europe to the sweeping excesses of eugenics in Germany and the United States, from the stories of scientists who first discovered the structure of DNA to the recent attempts to change the genetic material of human embryos, from the identification of the first genes that cause human illnesses such as cancer and Cystic Fibrosis to the landmark experiments that led to the mapping of the human genome, this film brings an immensely powerful and impactful science — and its enormous influence on culture — to life on the screen."

## in the Spotlight

### BAPTISTE

**Premieres SUN, April 12 - 10pm**

Retired and restless, Baptiste is visiting Amsterdam where his daughter has recently given birth. A lunch with old flame Martha Horchner, Amsterdam's chief of police, turns out to be more than a catch-up on old times: she wants his help finding Natalie, a missing girl who is the niece of Englishman Edward Stratton.

Martha believes the case is connected to a Romanian sex trafficking gang and that it is vital to find Natalie soon.

Julien meets up with Edward and they begin their search, but it's not long before Julien realizes that all is not as it seems. Why does nobody want to talk about the missing girl? Who is the man following Julien's wife? What is the connection between the case and the transsexual brothel, whose owner has sent someone to follow them? And who is the mysterious woman who helps the sex industry girls and tells them that Natalie has run away to Germany?

As Julien starts to uncover some of the truths behind the lies, he realizes there is more to this case than meets the eye. By the time Baptiste becomes aware of the danger that he's been drawn into, his own family is in grave peril.

MASTERPIECE

# WORLD ON FIRE

- The Guardian - Heat - Independent  
- The Times - Daily Mail  
- The Telegraph - Daily Star

SUNDAYS, APRIL 5 - MAY 11 AT 9PM

Helen Hunt, Sean Bean, Lesley Manville and Jonah Hauer-King head an international cast in a gripping World War II drama hailed as “an epic war saga with a difference” (*The Mail on Sunday, London*). Set in Britain, Poland, France, Germany and the United States, the events of this seven-hour series take place during the first year of the war. **World on Fire** traces the interweaved fates of several families in 1939 and 1940, from the Nazi invasion of Poland, to the near debacle at Dunkirk, to the fall of Paris and beyond.

MASTERPIECE Executive Producer Rebecca Eaton said, “At the very heart of any war are the families affected by it. **World on Fire** follows the fates of five characters as their stories weave in and out of each other’s. Love, death, heroism, and forgiveness bind them together as the world changes around them.”

Hunt plays Nancy Campbell, an American journalist whose inspiration was a combination of two real-life journalists: William Shirer, who did daily broadcasts and kept diaries during wartime, and British war correspondent Claire Hollingwood, who actually did see Nazi tanks gather on the Polish border. When the real Hollingwood reported what she saw to the British Embassy, they discounted her claim and ignored her warning. Hunt said she read Shearer’s diary to prepare for the role.

Executive producer and writer Peter Bowker was fascinated by the 1970s documentary **World at War** and how that documentary provided inspiration for **World on Fire** as they attempted to make a fictional version that provided various perspectives on the war as that documentary did. “Television had changed and people were investing more in longform series – it seemed like a good time to tell something novelistic in its sweep,” Bowker noted.

All over Europe, no one can quite believe that their normal lives, their everyday pleasures and worries, are about to be demolished. World War II encompassed millions of people and millions of individuals’ stories. **World on Fire** makes this wholesale tragedy achingly personal and, at times, heroic.
