SOPBS CEO MESSAGE

Phil Meyer, SOPBS CEO

Dear Fellow SOPBS Member,

I cannot thank you enough for your recent support of SOPBS. We have been heartened and gratified by your willingness to stand by us, with your letters, calls, and emails of support and your financial contributions.

Many donors have asked for clarification about the news reports they have heard regarding the loss of federal funding for public media, the closing of the Corporation for Public Broadcasting, and how exactly these issues at the federal level will affect SOPBS.

Here's the short version: **SOPBS will still be here for you.** We will not close our doors, or lessen our commitment to Southern Oregon and Northern California. Because of your support, we will continue to offer free access to high-quality educational programming, fact-based journalism, important public safety infrastructure, and iconic arts and cultural entertainment.

SOPBS has lost \$1 million in federal funds this budget year, which is 37% of our budget. That money would have come to us through the Corporation for Public Broadcasting, which is now beginning to wind down their operations at the end of

September, due to the rescission of previously-appropriated federal funding for public media.

Your individual donations have always been our most important and *most reliable* source of funding, and we are relying on that now even more.

Thank you for believing in the power of public media and our vision to unite and uplift us all. At a time when people are seemingly more divided than ever, we are committed to building community.

To bitter debate, we bring civility. To an anxious people, we provide safety. To a coarsening society, we offer culture. Where intolerance looms, we embrace diversity. To those who have little, we impart the priceless gift of education. And in the darkness of disinformation, we shine the liberating light of truth.

Your support of SOPBS makes all that possible.

Stay tuned,

A handwritten signature in purple ink that reads "Phil".

Remembering Ron Silverman

In late July, Former SOPBS Board President and Board Member Emeritus Ron Silverman passed away peacefully, at the age of 92. A former TV Writer, Film Producer (*Brubaker, Krull*), Film School Dean and Journalist, Ron also served on the Boards of The Craterian Theater and the Rogue Valley Symphony.

Ron's contributions to SOPBS and area nonprofits are many, and his influence will be felt for years to come.

Premieres Tues, Sept 9 at 10pm

This is the story of Thurgood Marshall, the visionary lawyer and civil rights leader who became the first Black justice on the United States Supreme Court. Drawing from rare archival recordings, personal photographs, and exclusive interviews, the film offers an intimate and timely portrait of a man who reshaped American democracy.

The film traces Marshall's journey, from his birth in Baltimore, Maryland, in 1908 to his formative years at Historically Black Colleges and Universities (HBCUs) Lincoln University and Howard University School of Law, to his groundbreaking career as a lawyer championing civil rights and dismantling segregation.

Marshall won 29 of the 32 cases he argued before the U.S. Supreme Court, including the landmark *Brown v. Board of Education* in 1954, invalidating the "separate but equal doctrine" and ending racial segregation in public schools. But the decision was met with "massive resistance" across the South and continued to be fought in the courts for decades.

In 1967, Marshall became the first African American appointed to serve on the U.S. Supreme Court. He served for 24 years and retired in 1991.

"To those of us who know the struggle is far from over, history has another lesson," said Marshall. "It tells us how deeply rooted habits of prejudice are, dominating the minds of men and all our institutions for three centuries, and it cautions us to continue to move forward, lest we fall back."

OCTOBER PROGRAM DESCRIPTIONS

Tues, Oct 14 at 9pm

AMERICAN MASTERS: MARLEE MATLIN: NOT ALONE ANYMORE explores Matlin's life as a groundbreaking performer, whose meteoric and tumultuous rise to fame started in 1987 when she became the first Deaf actor to win an Academy Award for her role in *Children of a Lesser God*.

At the age of 21, Matlin was thrust into the national spotlight, becoming for many Americans the first Deaf person they saw on TV, and overnight becoming the de-facto representative of the Deaf community.

The program shows never-before-seen home video filmed over the course of Matlin's 37-year career by her longtime interpreter and producing partner Jack Jason — including footage of Matlin behind the scenes on the sets of some of her most iconic roles.

For the first time in her own language, Matlin will reflect on her relationship with actor William Hurt, her place in the Deaf community, her fight for roles and accessibility in Hollywood, and what it means to be the first.

in the Spotlight

Wednesdays, Sept 10 – Oct 8 at 8pm

In Season 2, a team of wildlife filmmakers continues to use the latest filming technology to put you right inside the everyday lives of the Okavango Delta lions, leopards and cheetahs. As you watch each big cat hunting prey, protecting territory, and lounging in the hot African sun, you might just start feeling like part of the family — or, perhaps part of the pride.

The filmmakers bring us back into the center of the action, with many of our favorite cats taking on new roles and responsibilities. How will these lions, leopards and cheetahs fare with the ever-changing demands and threats in their ecosystem?

The stakes are even higher as new cubs bring added challenges. For the Xudum Pride, there are now more than 40 members, making it the largest pride in the world. This leads to increased competition for food.

The dominant male lions of the Xudum Pride, Big Toe and Madumo, are absent for long stretches, leaving the pride vulnerable to male intruders. Lioness Tsebe struggles to find enough food for her large litter of cubs. Meanwhile, leopard mother Lediba must protect her cubs from potentially deadly encounters with male leopards. Similarly, cheetah mom Pobe has two young cubs to protect and feed.

The series also introduces new characters, including an intruding male lion named Golden Boy, adding to the drama and tension within the pride's territory.

The Okavango Delta experiences dramatic environmental shifts, including wildfires and floods, which force the big cats to adapt and overcome new challenges. Take a captivating and emotional journey into the lives of these magnificent animals as they navigate a challenging yet dynamic environment.

It explores how the Colosseum, a symbol of Roman power and cruelty, hosted spectacles involving gladiators, prisoners, and wild animals. The episode also delves into the rumored feats of Roman engineering within the arena, such as the use of trap doors and mechanisms for lifting animals, and examines if such capabilities were achievable.

Oct 15 - Cleopatra's Last Temple

Off the coast of Alexandria lay the remnants of an ancient monument. For more than 30 years, the French explorer Franck Goddio has been working under a shroud of secrecy, hoping to confirm these remains as the temple of Cleopatra.

Oct 22 - Cracking The Queen's Code

The use of codebreaking helped uncover the details of Mary, Queen of Scots's escape plans. The letters, previously unreadable, reveal the extent of her plot and the challenges she faced during her captivity.

An unlikely celebrity who drew fire from across the political spectrum, Henry Kissinger is widely recognized as one of the great American statesmen of the twentieth century. According to biographer, "Kissinger seizes the imagination, because he engineered the most significant turning point in United States foreign policy since the beginning of the cold war."

Born in 1923 in Germany to devout Jewish middle-class parents, the young Kissinger was forced to flee Hitler's regime, settling with his family in New York City in 1938. After studying at City College, he joined the U.S. Army in 1943, serving as an interpreter and intelligence officer in Europe. Kissinger returned home in 1947 to a brilliant academic career at Harvard.

Kissinger served as a part-time foreign policy adviser to the Kennedy and Johnson administrations, and was the main intellectual force behind JFK's "flexible response" strategy, which advocated maintaining both conventional and nuclear forces to respond to Communist aggression, rather than resorting to threats of nuclear retaliation.

In 1968 president-elect Richard Nixon appointed Kissinger as his national security adviser. In what *Time* magazine described as an "improbable partnership" between a "secretive, aloof... old-fashioned politician, given over to over-simplified rhetoric" and "a Harvard professor of urbane intelligence." Working closely together, the two set out to re-shape the style and substance of U.S. foreign affairs.

In 1973, Kissinger shared the Nobel Peace Prize with Le Duc Tho for secretly negotiating an end to the Vietnam War. When Nixon resigned in August 1974 and Gerald Ford took office, Kissinger retained his position and his unprecedented influence on foreign affairs. Kissinger left office with the Ford Administration in 1977. He taught at Georgetown University and frequently appeared at a media consultant on international affairs.

MASTERPIECE THE GOLD

Sundays
Oct 5 - Nov 9 at 10pm

In 1983, six armed men broke into the Brink's-Mat security depot near London's Heathrow Airport, and inadvertently stumbled across gold bullion. What started as a typical armed robbery became a seminal event in British criminal history, remarkable not only for the scale of the theft, at the time the biggest in world history, but for its wider legacy. The disposal of the bullion led to a vast international money laundering operation, provided the dirty money that helped fuel the London Docklands property boom, united blue and white-collar criminals, and left controversy and murder in its wake. Inspired by extensive research and interviews with some of those involved in the events, THE GOLD is a pulsating dramatization which takes a journey into a 1980s world awash with cheap money and loosened morals to tell this extraordinary and epic story for the first time in its entirety.

Following the conviction of some of those involved in the theft and handling of the Brink's-Mat gold, the police realized that those criminals only ever had half of it. Season Two explores what happened to the other half, and the criminal fortune it created. As the police investigation continues, it becomes a tense, high-stakes journey into international money laundering and organized crime, while the police embark on dramatic manhunts as they desperately try to solve the longest and most expensive investigation in the history of the Metropolitan Police.

Starring Hugh Bonneville as DCI Brian Boyce

Oct 5 - Episode 1

Six armed men steal £26m worth of gold from the Brink's-Mat security depot and set about trying to dispose of the bullion. DCI Brian Boyce sets up a task force to investigate.

Oct 12 - Episode 2

The criminals create a system to smelt the Brink's-Mat gold and sell it back into the market with the profits being laundered. Jennings and Brightwell make a breakthrough in the case.

Oct 19 - Episode 3

The task force set up surveillance on Noye and are led to Palmer and more of the suspects. A police raid ends in tragedy in Noye's garden.

Oct 26 - Episode 4

Palmer learns he is wanted by the police. Cooper and Parry's plan to move cash across Europe is a success. Noye's murder trial comes to a dramatic conclusion.

Nov 2 - Episode 5

Palmer is finally caught after attempting to escape to Brazil. The police learn that Cooper and Parry have been laundering the Brink's-Mat millions. Cooper is arrested, but Parry escapes.

Nov 9 - Episode 6

Some of the criminals are found innocent and others are convicted, but the police realize the gold was split after the robbery. Their Investigation must continue in Season 2.

Saturdays at 3:30pm

FIRING LINE WITH MARGARET HOOVER is a refreshing reprisal of William F. Buckley's iconic PBS program, a smart, civil and engaging contest of ideas. The series maintains the character of the original, providing a platform that is diligent in its commitment to civility and the rigorous exchange of opinion. This show comes at a time when meaningful discourse is needed more than ever. Interviews and debates will highlight leading lights from the left and right, complemented by archival footage from the original FIRING LINE to remind viewers of long-standing conservative and liberal arguments, where they've been disproved or reinforced over time. It is an opportunity to engage in the debate about the America that we want to create for the 21st century — and summon Americans of every political persuasion to a rigorous examination of the choices we must make together in the challenging years ahead.
